

# ADJUSTABLE STAND

## REDUCES FABRICATION

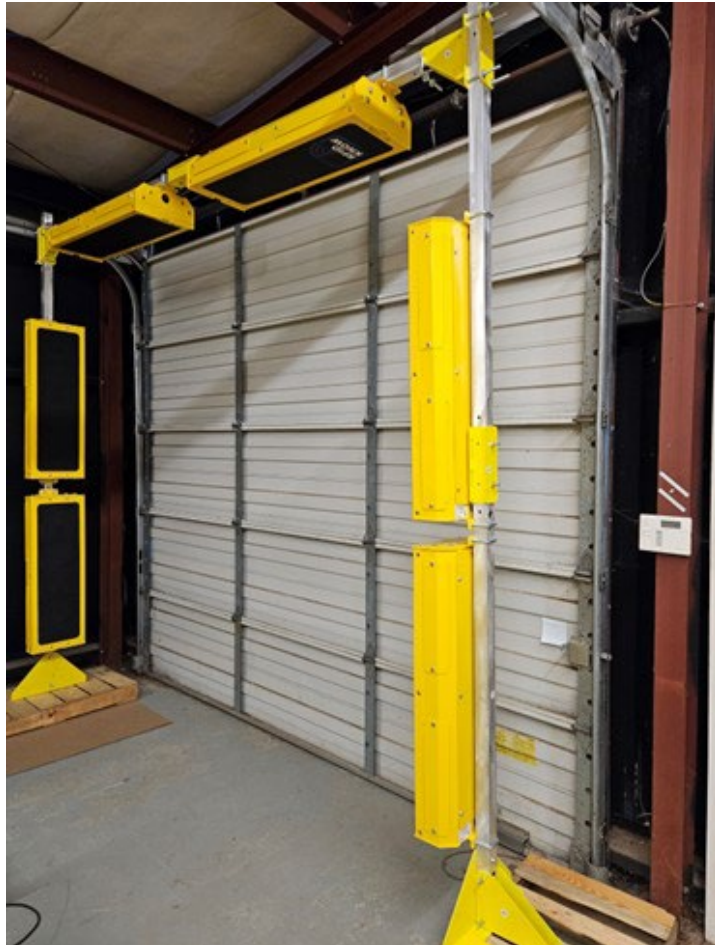

FLEXANTENNA Adjustable Mounting Stand boasts a rugged industrial construction conveniently pre-packaged as a kit to allow fast shipment and site installation without need to fabricate on site.

## FLEXIBLE INSTALLATION

Modular in design, the FLEXANTENNA Adjustable Stand allows you to adjust the height and width of the structure to fit a wide variety of applications. Multiple kits can also be connected to form arches over doorways or for vehicles to pass underneath.

## EASE OF DEPLOYMENT

With rising costs of shipping and labor, FLEXANTENNA Adjustable Stand is a clear winner with reduced costs to transport, deploy, and support. The modular design reduces size and weight allowing for standard parcel shipments.
